

Presented by the "Mwamba Family Foundation"

The Mwamba Family Foundation is proud to present the "Fight For Five" campaign. "Fight For Five" is a global awareness campaign focusing on the Democratic Republic of the Congo.

Unfortunately, the Congo is one of the poorest economic and civil disasters on the planet. The Democratic Republic of Congo, also known as the DRC, is the third largest country on the continent of Africa.

A vast country with immense economic resources located in the center of Africa, the DRC is also at the center of what could be termed Africa's world war.

The "Fight For Five" campaign seeks to raise awareness about issues in the DRC that may be little known. However, the main goal of the "Fight For Five" campaign is to make a change. "Fight For Five" has held events in many countries including the United States, Canada, and Belgium. Our message is simple: ***Nobody can do everything, but everyone can do something.***

The Mwamba Family Foundation would like to thank all the supporters of the "Fight For Five" campaign. We are committed to being a voice for those that are not heard. We are committed to shining a beam of hope to those in the DRC that are hopeless.
